FullStack Trainig - MERN
May - July 2023

EXPERTISE

HTML , CSS , TailwindCSS

JavaScript , Typescript, React.js

Node.js , Express.js

git , gitHub

LANGUAGE

English

About

   I care deeply about the people that I work with, because developing a good working relationship with others is what makes projects and companies successful. To me a huge part of being a developer is communicating well with your team. I enjoy programming because of the satisfaction I get from taking a rough concept of something that doesn't yet exist and making it exist. Each project comes with its own set of challenges. This keeps me interested and constantly adapting.

Experience

Jun 2023- Present
Frontend and full stuck developer
ACE DIGITAL STUDIO
- I am working with a team of developers on various projects.
- Currently working on an e-commerce application.
- I have also created a BUG TRACKER application (AntEater). It is a project management tool for running a software development company.

September 2022 - May-2023
Frontend developer
Freelence
- I have built several simple websites and applications for clients
